

Good morning to all

Kathy Radcliffe and I attended the ORNAC board meeting the weekend of November 2nd; the following are the highlights from that meeting:

- ORNAC continues to maintain a balanced budget and is in good standing should there ever be issues with National Conferences, Victoria did very well for ORNAC
- Next National Conference, June 2009 in St. John's Newfoundland, following that Edmonton has been awarded the conference to be held May 5-10, congratulations to Alberta
- There are two new awards being developed by the Awards committee, the Gloria Stevens award and the Armac Surgical Safety award....details pending
- ORNAC is looking to change its website and brought in a representative from HORIZON (Jeff) to give them a presentation, Jeff from Horizon is our webmaster, he has also just developed a website for Alberta. ORNAC was very impressed and will be having discussion with him in the future. Look for change next summer
- As always these meetings provide all with a great overview of what everyone all over the Country is doing, we are all in the same boat....

Joanna
