

Membership Report for ORNGT April, 2008 meeting

Total membership numbers 250 active + 4 associates = 254. That adds up to 15 members less than last year. Let's encourage our colleagues next year to join up.

The winner this year in absolute numbers is St. Michael's Hospital with 25, second is Scarborough general with 23, and third is Southlake with 20. Congratulations.

We should also acknowledge the one committed member from Scarborough Grace, and from Humber River Regional-Church site; and the 2 members from Headwaters and from Halton Health Care, Oakville. Let's celebrate their commitment to perioperative nursing. They are setting a great example to their colleagues.

The March issue of the Canadian Operating Room Journal has arrived. Only those members who signed up prior to March 1st will be receiving the journal. IF you are eligible and having problems, contact the publisher through:

contact@ClockworkCanada.com

Please note you can subscribe to the journal separately or order single copies. The information is in the front of the journal.

We will be providing information to you by the final June dinner meeting on signing up for the coming year.
